

Project FORTRESS: Live Exercise & Workshop

July 16 & 17, 2024 | Chişinău, Moldova

Preventing the Diversion of Sensitive Chemicals & Biological Materials from Moldova

BREAKOUT GROUP ACTION ITEMS

GROUP 1: FUTURE POLICY & REGULATORY CONTEXT

- Include a platform for communication to non-governmental stakeholders in UNICRI's CBRN Risk Reduction Program
- Outsource regulatory control to technical support organizations (TSOs)
- Empower research associations to create and deliver capacity-building activities (guidance on compliance)

Motive is a Washington, DC-based social enterprise with a mission to mitigate conflict

GROUP 2: BEST PRACTICES & OPPORTUNITIES FOR INDUSTRY & ACADEMIA

- Establish ICPs that include dual-use research of concern/research security
- Make an inventory of dual-use items at the company, lab, and university level and their listed status
- Create templates for contracts and end-use agreements that are universal and customizable

GROUP 3: CROSS-SECTOR COLLABORATION & INFORMATION SHARING

- Develop an online one-stop-shop for compliance
- Construct industry parks with shared infrastructure
- Create a cross-sector governance council for training & initiatives
